## Forward Pharma (NASDAQ:FWP) Corporate Update

December 4, 2017

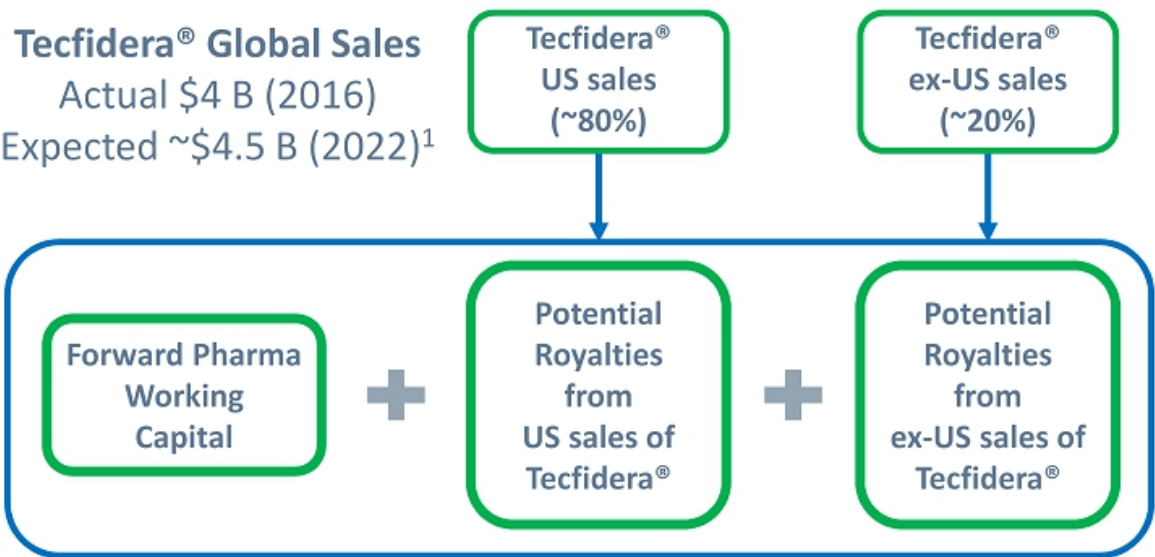

**Claus Bo Svendsen, MD, PhD**  
*Chief Executive Officer*

Certain statements in this presentation may constitute “forward-looking statements” of Forward Pharma A/S within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, but are not limited to, statements which contain language such as “believe”, “expect”, “anticipate”, “estimate”, “would”, “may”, “plan” and “potential”. Forward-looking statements are predictions only, which involve known and unknown risks, uncertainties and other factors that may cause actual results to be materially different from those expressed in such statements. Many such risks, uncertainties and other factors are taken into account as part of our assumptions underlying these forward-looking statements and include, among others, risks related to the following: the satisfaction of certain conditions, and the accuracy of certain representations of the Company, in the Settlement and License Agreement entered into with subsidiaries of Biogen Inc. and certain other parties thereto; our ability to obtain, maintain, enforce and defend issued patents with royalty-bearing claims; our ability to prevail in the interference proceeding after all appeals and obtain issuance of the ‘871 application; our ability to prevail in or obtain a favorable decision in the ‘355 European opposition proceedings, after all appeals; the expected timing for key activities and an ultimate ruling in such legal proceedings; the issuance and term of our patents; future sales of Tecfidera®, including impact on such sales from competition, generic challenges, regulatory involvement and pricing pressures; the scope, validity and enforceability of our intellectual property rights in general and the impact on us of patents and other intellectual property rights of third parties; and our ability to generate revenue from product sales in the U.S. directly or through an assignee of our U.S. co-exclusive license rights in the event Biogen does not obtain an exclusive license from us in the U.S. Certain of these and other risk factors are identified and described in detail in certain of our filings with the United States Securities and Exchange Commission, including our Annual Report on Form 20-F for the year ended December 31, 2016. We are providing this information as of the date of this presentation and do not undertake any obligation to update any forward-looking statements contained in this presentation as a result of new information, future events or otherwise.

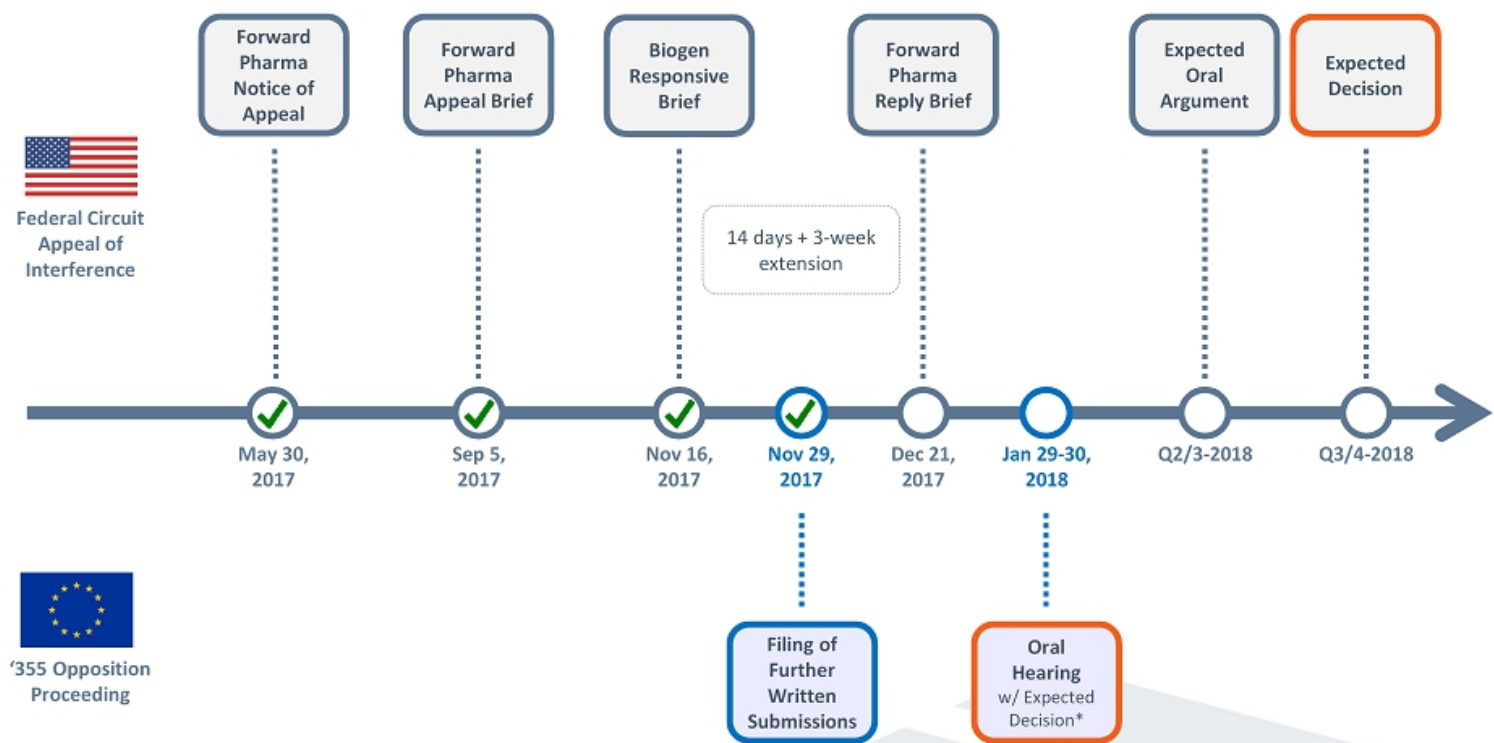

- Tecfidera® (DMF) remains a leading therapy for multiple sclerosis
  - 2022 forecast to \$4.46B in global sales
  - US sales ~80%; ex-US sales ~20%
- FWP has IP-gated access to future royalties on Tecfidera® sales
  - Irrevocable license to all DMF IP granted to Biogen in January 2017
  - Potential future royalties on Tecfidera® sales in US and EU dependent on upcoming legal decisions expected in 2018
  - Top legal teams driving appeal of U.S. patent interference decision and European opposition proceeding
- Business optimized to support ongoing IP strategy and continuing obligations per settlement & license agreement
- Capital reduction and shareholder distribution of EUR 917.7 M effected September 2017

# Share Value Drivers under the Settlement and License Agreement

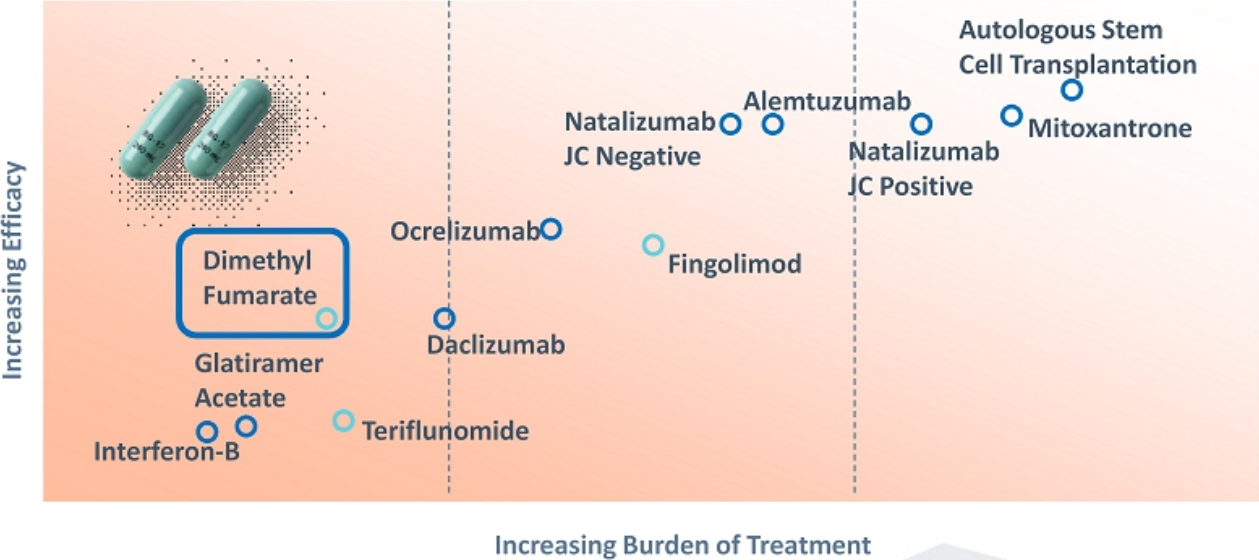

1. Analyst consensus estimates, EvaluatePharma, May 2017. Not meant to be comprehensive; size of boxes is arbitrary and not meant to illustrate comparative differences in amounts. Appropriate risk-adjustment should be applied. Potential investors and current shareholders are strongly urged to read the Settlement and License Agreement in its entirety as well as our Annual Report on Form 20-F for the year ended December 31, 2016, where risk factors are identified and described in detail.

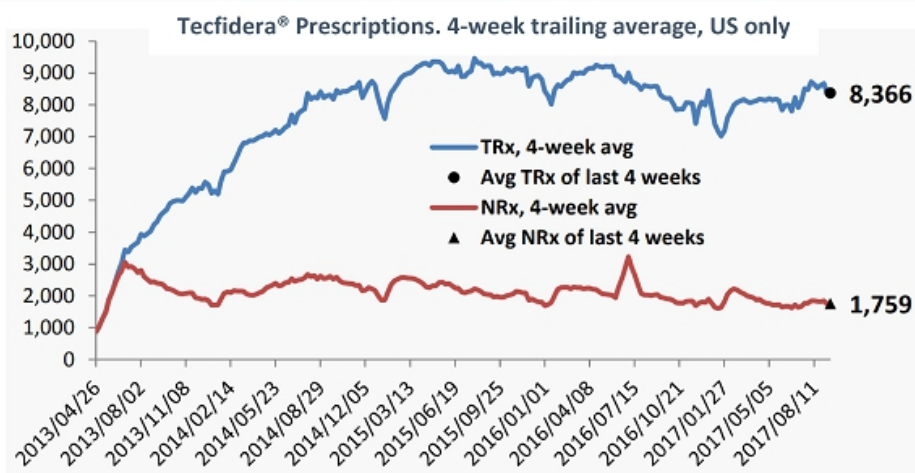

# Timeline for IP litigation in U.S. and Europe

Dates represent current timeline; a green tick mark signifies actual date of completed event.  
Documents for the US appeal can be located through <https://ecf.cafc.uscourts.gov/> and for the European Opposition through <https://register.epo.org/regviewer>  
\* Opposition Division typically issues a decision at the conclusion of the Oral Hearing, with more detailed reasons issued later. Possibility for appeal of the decision of the Opposition Division to the Technical Board of Appeal, with conclusion in an additional 2-3 years.

- **Regulatory Data Exclusivity and Patent Protection**
  - Settlement and License Agreement adds Forward Pharma IP
- **Launch of Ocrevus®**
  - Based on analyst reports and interviews with EU and US KOLs, Ocrevus® is initially converting later stage patients on injectables and adding a Progressive MS market
- **Potential Generic Fingolimod and additional S1P modulators**

# Gating Events for Royalties on Tecfidera® Sales

The summary of the Settlement and License Agreement in this presentation does not purport to be complete and is subject to, and qualified in its entirety by, the full text of the Settlement and License Agreement, which is available on Forward's website. Potential investors and current shareholders are strongly urged to read the Settlement and License Agreement in its entirety as well as our Annual Report on Form 20-F for the year ended December 31, 2016.

# Potential Royalty Rates on Tecfidera® Sales

(a) Subject to, among other things, expiration or invalidation of the patents or impact of generic entry on a country-by-country basis, as defined in the License Agreement  
(b) Royalties payable on a country-by-country basis on DMF-containing products indicated for MS that, but for the License Agreement, would infringe a Forward licensed patent

- **Interference declared April 13, 2015**

A patent interference is an administrative proceeding at the USPTO used to determine which party is the first to invent a common invention claimed by both parties.

- **Forward awarded “Senior Party” status**

The Senior Party has the earliest effective filing date to the common invention; entitled to the presumption that it is the first inventor.

- **On March 31, 2017, the USPTO PTAB ruled in favor of Biogen**

Without addressing which party was the first to invent the common invention claimed by both parties, the PTAB concluded that the Forward patent application did not have sufficient written description support for the claimed invention.

- **Forward is appealing the ruling to the U.S. Court of Appeals for the Federal Circuit**

Specialist team led by Kathleen Sullivan from Quinn Emanuel Urquhart & Sullivan, LLP.

Forward Pharma Reply Brief due on December 21, 2017.

Should the Forward appeal be successful, the interference will be returned to the USPTO to resume the interference proceeding. After completion of the interference proceeding, a further appeal to the U.S. Court of Appeals is possible.

- EP2801355 patent granted by European Patent Office (EPO) on May 20, 2015
- Subject to several oppositions filed with the EPO by third parties (including Biogen)
- **The first instance hearing of the Opposition Proceedings in the EPO is scheduled for January 29-30, 2018**

Opposition Division typically issues a decision at the conclusion of the Oral Hearing, with more detailed reasons issued later.

Possibility for appeal of decision of Opposition Division to the Technical Board of Appeal, with conclusion in an additional 2-3 years.

- Decision was based on a careful evaluation of the most appropriate capital allocation strategy after receipt of the non-refundable \$ 1.25 billion cash fee from Biogen
- **EUR 917.7 M in total returned to shareholders**
- The capital reduction is the final step of the organizational transformation to align the amount of working capital with the adjusted business activities following the Settlement and License Agreement with Biogen.

- Capital Reduction completed in September 2017
  - EUR 917.7 M distributed to shareholders
  - Current number of issued shares is 94,367,998, of which 24.34% are listed as ADSs on NASDAQ (1 ADS represents 2 shares)
- Stock information (*NASDAQ: FWP*; per November 29, 2017)
  - Closing price: \$ 4.20
  - Market Cap : \$ 198.2 M

4 patent applications are currently pending that, if issued, may contain claims that may be royalty-bearing if Forward obtains a Relevant Patent after all appeals in the Interference Proceeding

	Application Number	Description
US	11/576,871	Treating MS with DMF at 480 mg/day <b>Interference declared; FWP as Senior Party – April 13, 2015</b> <b>PTAB ruled in favor of Biogen – March 31, 2017</b> <b>Final Brief in the Appeal to the Federal Circuit due – December 21, 2017</b>
	15/581,966	Claims to up-titration of DMF to 480 mg/day for the treatment of MS to be filed
	14/212,503	Treating MS with DMF at 480 mg/day to reach certain MMF levels in the bloodstream On appeal from final rejection
	15/728,872	Claims to a pharmaceutical composition comprising DMF in an amount of 50-90% by weight to be filed

A Relevant Patent is a patent that covers treatment for MS by orally administering 480 mg per day of DMF.

If we prevail in the Interference Proceeding after any appeals to the Federal Circuit, we further expect the 11/576,871 application, if ultimately issued, would be entitled to patent term adjustment that would result in an estimated patent expiration in 2029 or later. There is no assurance that patent term adjustment would be obtained to fully compensate for all such time lost.

If Forward obtains a Relevant Patent in the European EP'355 opposition proceedings including all appeals therefrom, and can show on a country-by-country basis that Tecfidera® infringes a valid licensed patent, royalties may be payable. In Europe, there are presently four patents and patent applications with potentially royalty-bearing claims.

	Application Number	Description
Ex-US	EP14172398.1 (Pat. No. EP2801355)	Treating MS with 480 mg/day of DMF wherein the pH controlled release compositions have an enteric coat <b>Granted – May 20, 2015; Opposition hearing before EPO scheduled for January 29-30, 2018</b>
	EP15166243.4 (Pat. No. EP2965751)	Treating MS with 480-600 mg fumaric acid esters (including DMF)/day where the composition releases fumaric acid esters depending on pH. Application pending
	EP14172396.5 (Pat. No. EP2792349)	Controlled release composition of DMF for use in treating hyperproliferative, inflammatory or autoimmune disorders other than psoriasis with 480 mg/day <b>EPO issued intention to grant – September 13, 2017</b>
	EP16001391.8 (Pat. No. EP3093012)	Controlled release pharmaceutical composition comprising DMF in an amount of 50-90% by weight <b>EPO issued intention to grant – May 8, 2017</b>

A Relevant Patent is a patent that covers treatment for MS by orally administering 480 mg per day of DMF.
